

LIGHTING FOR LIFE
PRODUCT CATALOG

OUTSTANDING QUALITY & DURABILITY

Our reputation has been built on our innovation, product quality, ease of installation, long warranties, and our trend-setting LED lighting designs. DEKOR lighting products are known for unprecedented quality and product longevity. Our lights are, and will remain, the pinnacle of craftsmanship and value.

**INNOVATE, BUILD THE BEST,
AND LEAVE THE REST TO GOD.**

12VDC

CREE LIGHTING

OUR STORY

Since opening its doors in 2001, DEKOR® has grown from its humble roots of manufacturing premier decking components into a leading manufacturer, designer and innovator of LED lighting products. Other companies have attempted to copy our industry-leading lights, but they've never succeeded in duplicating DEKOR's unprecedented quality and product longevity. We have always honed in on producing a lot of light from a small footprint.

We don't employ workers, but instead true craftsmen that build and assemble your orders. As a "make to order" company for many of our products, DEKOR manufactures your order to meet higher quality standards and a higher standard of craftsmanship than mass-produced products. We use only the finest components and materials. Having these high-quality standards has allowed us to increase our warranty on our lights and transformers, giving us some of the longest coverage in the marketplace. We have not forsaken form for functionality. We've engineered our LED technology in beautiful designer finishes and looks to complement traditional, transitional, and contemporary architectural styles.

You will not find our products in big box stores, as we enjoy dealing with customers on an individual basis. It's not about the money generated by the sale to us – it's about giving true value for one's hard-earned money, and knowing that, in some small way, we have helped improve your project or quality of life. At DEKOR, we live by the policy: "Treat customers the way we like to be treated. Work not just to meet, but to exceed customer expectations. Stand behind our products." Thank you for your patronage.

EASY TECH

PLUG-N-PLAY™ TECHNOLOGY

“If you can charge your cell phone, you can install our products.”

- Duane McCall, President and CEO of DEKOR

Our Plug-N-Play™ Connector System is completely self-sealing, removing the need for stripping wires and wire nuts. Takes the guess-work out of installation; no need to track the polarity (red and black wires) because DEKOR connectors are keyed to plug in the correct way.

Do you DIY? If so, you'll love the ease of installation. If you're a professional, you will love how Plug-N-Play™ drastically cuts installation time and cost.

Advantages of Our Plug-N-Play™ Connector System

Waterproof • Tool-Free Connection • No Cutting, Stripping Wires, Wire Nuts • Individually Tested Self-Sealing • Keyed Connectors, Polarity Determined Connector • Low Voltage Safety Can Connect or disconnect While Under Load • ETL Certified

CHOOSE DEKOR

INDUSTRY LEADING INNOVATION, DESIGN, AND MANUFACTURING OF 12VDC LED LIGHTING & CONTROLS.

DEKOR Lighting exists at the intersection of art and technology. Our design and engineering teams work in lockstep to give customers the best of all worlds by creating beautiful luminaires that are exceptionally efficient and robust.

Efficiency – LEDs are generally the most efficient option for outdoor lighting, but we take it to extremes. Having engineering in-house allows us to evolve with the LED industry, keeping DEKOR LED lights consistently among the highest efficacy products available on the market.

Quality – DEKOR exclusively uses best-in-class CREE LEDs and is a recognized branding partner. Every light is built to last and carries an industry leading warranty.

Durability – From aircraft-grade aluminum to specialized UV-stable polycarbonate, every component that goes into a DEKOR product is chosen for durability and is thoroughly tested.

Ease of Installation – The DIY-friendly Plug-N-Play cabling system means professionals and homeowners alike can install DEKOR products with no stripping, splicing, or shenanigans.

Safety – Our products are ETL listed and meet international safety standards.

Outstanding Warranties – We back the exceptional quality of our products with exceptional warranties to match.

Customization – Designing and producing our products in-house allows us unparalleled flexibility when it comes to customization. We can create lights in custom color temperatures, change up our powder coating colors, and so much more!

Support – Our care team works alongside the production team at our Denver, CO manufacturing facility and has hands-on experience with our products.

WE BELIEVE IN AMERICAN CRAFTSMANSHIP AND QUALITY

Some of the world's best products are still made in America and DEKOR is a part of that tradition. Keeping our entire operation, from engineering to production to support, in the USA has been key to maintaining a reputation based on quality over the past 20 years. There is simply no substitute for the ability to check and recheck every component of every product at every stage. We invest heavily in technology, equipment, and training to support our growth without compromising integrity or quality of the products that have come to be known as the pinnacle of craftsmanship and value.

NexGen™ LED Lights by DEKOR

NexGen™ lights are perfect anywhere that added punch of light is needed. If you have an application where you need much more than mood lighting then this product is just what you need.

High Efficacy CREE LEDs • Dimmable • Up to 3x light Output vs Standard LEDs
3200K Neutral White Color Temp. • Wide Beam Angle
High (90+) CRI for Realistic Colors

DECK LIGHTING PRODUCTS

DECK LIGHTING PRODUCTS

Deck lights serve to highlight your outdoor living space, provide a warm ambiance, and allow family and guests to safely enjoy your patio at night. Just like the interior of your home, you want to create the perfect ambiance that promotes fun, conversation and everything in between. There are many available options that can be used on the deck, stairs, railings, posts and more.

ALL DECK PRODUCTS HAVE A 10 YEAR WARRANTY

We offer a 10 year warranty on all of our Deck products when installed with a DEKOR brand transformer; no warranty when used with any other power source.

PREMIUM QUALITY FINISH 30 YEAR WARRANTY ON ALL POWDER COAT FINISH

A. DEK DOT™ LIGHT

DEKOR's Dek Dot™ are tiny waterproof deck lights designed to be walked upon. They install totally flush with the surface, making them virtually unseen and unfelt underfoot. Originally intended as deck and patio lights, these versatile LED lights are also used for docks, pathways, walkways, driveways and more.

Available in a DOWN light version (these lights cast a beam perpendicular to the surface) and Stair light version (these lights cast a beam angled 30° down).

Key Features:

- Embed in wood, composite decking, and concrete.
- Designed to be walked upon.

Housing Diameter 90" • Housing Depth: .625"

B. UP/DOWN LIGHT

Whether you're looking to brighten up a new porch or enhance your curb appeal during a home remodel, DEKOR's Up/Down lights have a flush mount and can be used as uplighting or downlighting. If installed as recessed downlighting, the lamp will cast light straight down. They can be installed as porch ceiling lights, under deck lighting, handrail lighting and much more. If you choose to install as uplighting, the lamp will cast light straight up. This is often used to light up homes for added curb appeal.

Housing Diameter (recessed): .90"
 Housing Depth (recessed): .8375"
 Housing Diameter (exposed): 1.250"
 Housing Depth (total): .90"
 Housing powder coat finish options, see page 42.

Powder coat finish options, see page 42.

RECESSED LIGHTS

C. STAIR LIGHT

DEKOR's Stair lights allow exterior steps and stairs to be illuminated for both safety and ambiance. They are perfect for decks, docks, patios, and embedding in concrete walkways or steps. They feature a 30° light angle and become directional simply by turning the housing.

Available with or without Faceplates

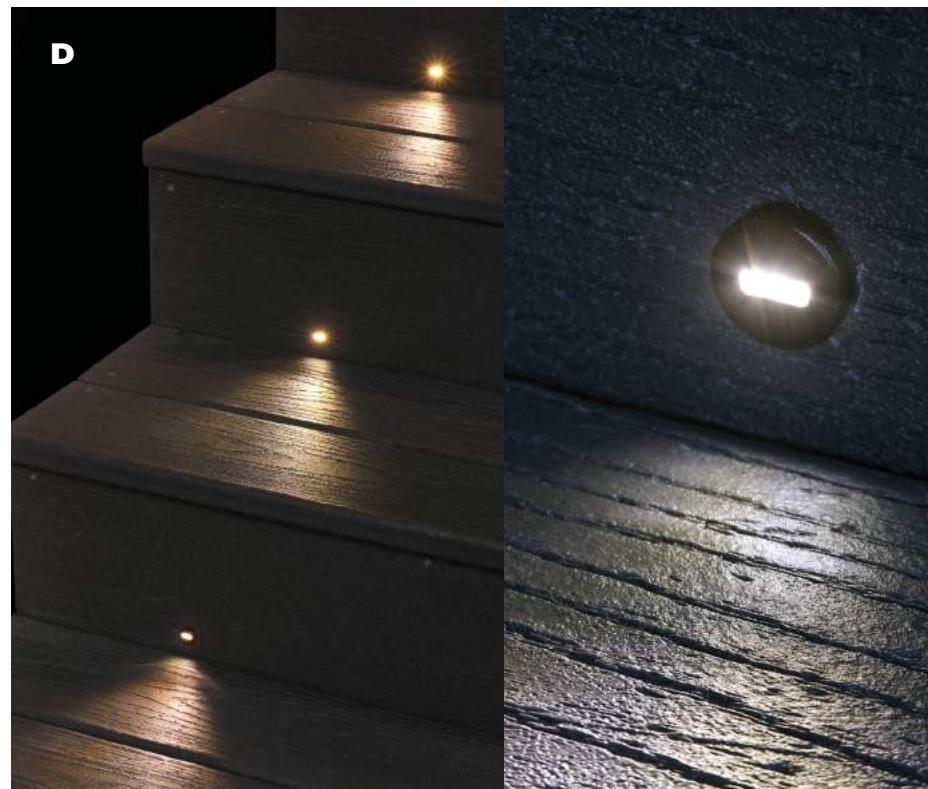

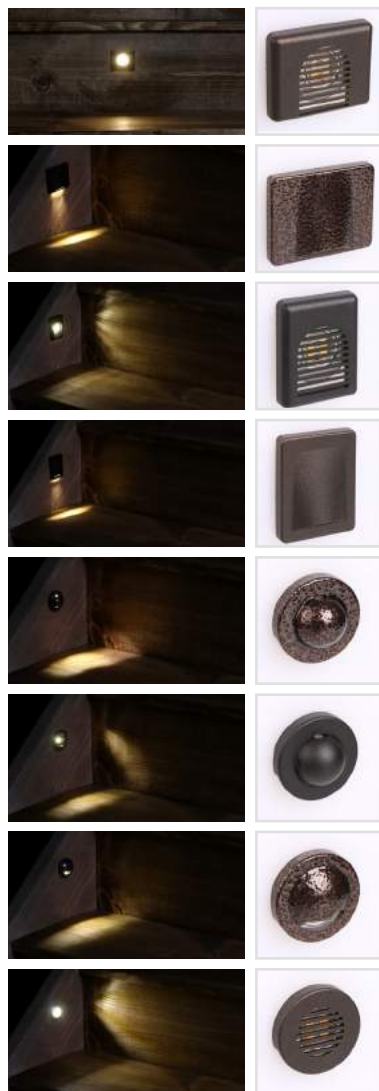

Housing Diameter (recessed): .90"
 Housing Depth (recessed): .8375"
 Housing Diameter (exposed): 1.250"
 Housing Depth (total): .90"

Choose from multiple powder coating finishes to match your home's color scheme. Faceplates arrive pre-assembled to light housing, concealing housing. Housing is only available in Antique Metal Black.

D. MINI STAIR LIGHT

DEKOR's smallest stair light yet! These recessed stair lights provide a stunning amount of light from a very small package, allowing you to achieve maximum visibility with minimal obstruction on your stairs. DEKOR's Mini Stair light comes with two face styles, allowing you to customize your lighting.

NOTE: Will get hot to the touch under normal operating conditions. Please use caution when handling lights that have been on for an extended period of time.

DECK LIGHTING PRODUCTS

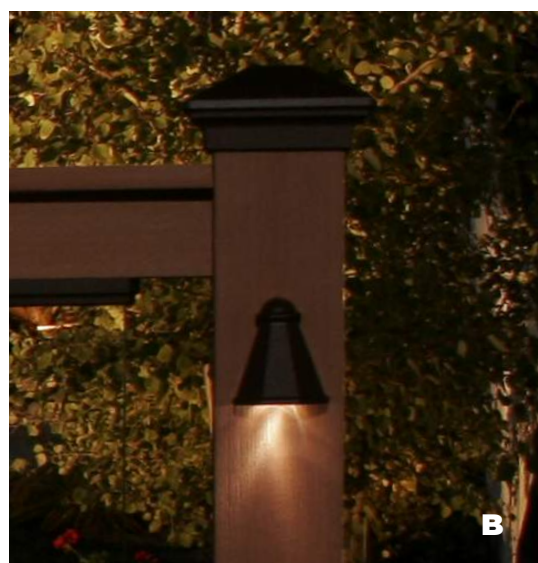

A. ELITE BIDIRECTIONAL LIGHT

This low-profile post light creates a striking cross-like light pattern and can be mounted on both horizontal and vertical surfaces. The light has two separate sized light windows that show a different light pattern when rotated. Use for deck lighting, dock lighting, as a post lamp or as a wall light.

Key Features:

- Creates a striking cross-like light pattern
- Die cast aluminum with easy-to-mount bracket

Height: 2.5" • Width: 2.5"
Depth: .5" Exposed
Small opening: 4 Lumens
Large opening: 8 Lumens

B. TEAR DROP LIGHT

The durable decorative cover on this post lamp slips over our easy-to-mount bracket, making installation of this perfectly sized post accent lamp a breeze.

Key Features:

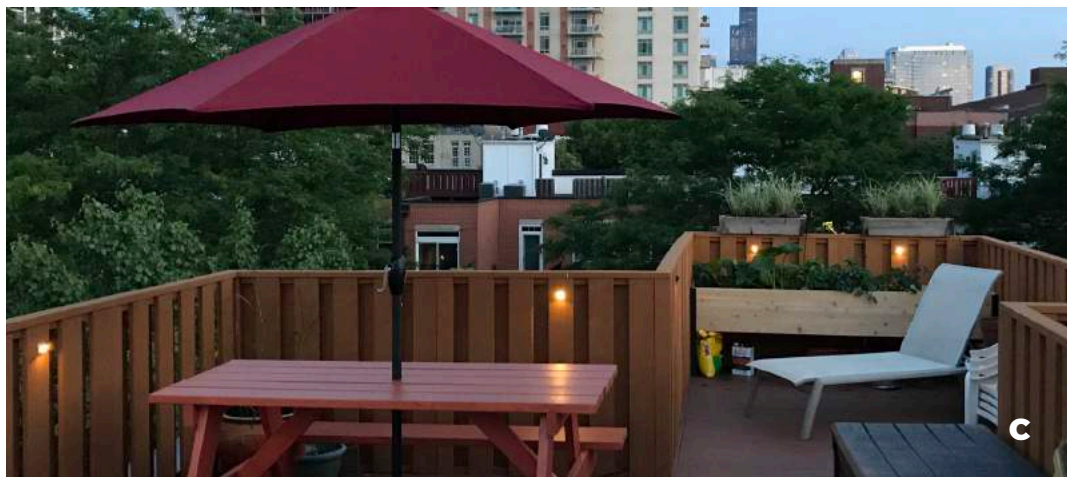

- Die cast aluminum with easy-to-mount bracket

Height: 4"
Width: 3.5"
Depth: 2.5"
20 Lumens

Powder coat finish options, see page 42.

POST/RAIL LIGHTS

C. PETITE DIRECTIONAL LIGHT

Directional Petite post lamps from DEKOR can be mounted anywhere along a full 360° rotation and cast light out at 30° from the mounting surface. Originally intended for post lighting, the directional lights can be used almost anywhere!

DECK LIGHTING PRODUCTS

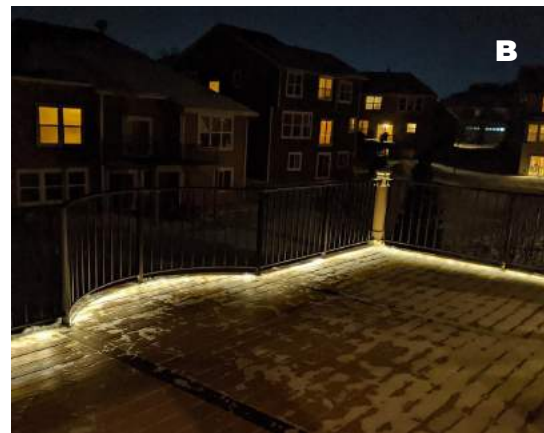

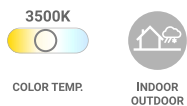

STRIP LIGHTS

A. FLEX ROPE LIGHT

Our Flex Deck LED Rope light is the simple, versatile solution to all of your complex lighting needs. With a completely hotspot-free shine, this shining strand of light produces a steady and even light output from all angles, edges, and sides.

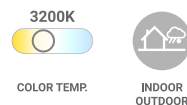

Width (light emitting surface): .315"
 Height (housing): .26" x .50"
 Length: 5' default, Customizable
 60 Lumens per foot

B. INFINITE LIGHT

The aptly named Infinite light provides a sleek, low-profile, weatherproof way to light up railings, stair treads, and much more. The pigtailed allow you to daisy-chain together individual lights to create runs of custom lengths. Attaches firmly to any smooth, hard surface with the included pressure sensitive adhesive strips.

Height: .25" • Width: .5"
 Length: 20" without pigtailed
 85 Lumens per foot

C. NOSEEM LIGHT

Named No See Em because of their incredibly small height – a mere 5/16" – and their unique design geometry that hides where the light is coming from. They are designed to illuminate, but not be seen. No See Em light strips are perfect for stair risers, under deck railings, and even a truck bed.

Housing Height: .50" • Housing Depth: .3125"
 Housing Length: S: 7 3/4 in.; M: 13 7/8 in.; L: 19 3/4 in.

SOLAR POST CAPS

B. SAVVY SOLAR POST CAPS

DEKOR's Savvy Solar post cap design echoes the best-selling style of our flagship LED post caps collection, with robust recycled aluminum housing and a clean silhouette. The solar component of the cap, a Li-Ion Polymer battery, is effortlessly integrated into the design to absorb optimal sunlight without intruding the sleek silhouette. Similar to our wired post caps, these are made from the strongest aerospace grade aluminum, for homeowners who appreciate quality, craftsmanship, and value when they buy for their home. Our Savvy Solar post caps are also equipped to charge alternatively with a DEKOR transformer on the days where the solar energy runs low.

Sizes: 3 1/2", 4 1/8", 4 9/16", 5 1/8", 5 1/2", 6"

Configurations: Non-Lit, Lit: 1 side, 1 corner, 2 sides, 3 sides, 4 sides

FEATURED PRODUCT WE BELIEVE IN

XTREME BOND COMMERCIAL GRADE ADHESIVE FOR LANDSCAPE AND MASONRY

Xtreme Bond™ masonry adhesive is a high-quality, premium polyurethane construction adhesive that tackles any outdoor project with ease. This adhesive is specially designed for construction, landscape and hardscape pros to bond nonporous materials such as masonry, concrete, brick, stone, metal, and cement blocks, as well as porous materials such as untreated wood and fiberglass.

Commonly used when building structures or making repairs, Xtreme Bond adhesive glue can stand up to harsh, adverse weather conditions, including wet and frozen surfaces. This adhesive has a fast drying time as it creates a permanent, strong bond to any substrate.

- Available in 10.5 oz cartridges and 29 oz sizes
- Dries in a tan color
- Working time of up to one hour
- Creates a permanent bond overnight

USED ON WET AND FROZEN SURFACES

CAN BE APPLIED IN SUB-FREEZING TEMPERATURES

**CAN BE USED IN EXTREME TEMPERATURES AND ADVERSE
WEATHER CONDITIONS**

EASY TO USE AND OFFERS A FAST CURE TIME

**QUICK ADHESION WHILE LONG OPEN TIMES ALLOWS FOR
REPOSITIONING BEFORE PERMANENTLY BONDING**

**DURABLE BOND UP TO 3 TIMES THE STRENGTH OF
CONVENTIONAL ADHESIVES**

**WILL NOT LOSE ITS BOND OVER TIME OR CRACK FROM
DIFFERENT EXPANSION RATES OF DISSIMILAR MATERIALS**

**CREATES A UNYIELDING BOND THAT'S USUALLY STRONGER
THAN THE TWO ADHERED MATERIALS**

B. DOCK DOT™ STARBOARD/PORT LIGHT

What a perfect way to indicate the left (port) and right (starboard) side of your dock or boat landing, by installing DEKOR's Starboard/Port Dock Dots. All mariners know how important it is to define the port and starboard sides of a dock at night and DEKOR has you covered with their Dock Dot™ 1" diameter, waterproof, LED, dot style lights. This will really make your dock stand out.

BRIGHTER, BETTER...

NexGen™ LED Lights by DEKOR

When our customers asked for brighter lights in our current small fixture footprints, we rose to the occasion. With some clever design choices and even higher efficiency LEDs, we achieved a new peak in LED lighting.

We call this product line “NexGen™” as they represent the next generation of DEKOR’s LED lights. The light output is a dramatic increase over our standard product offering from the same light fixture footprint. This NexGen technology is an option for most of our lights. All lights still use our standard Plug-N-Play cable system, making installation simple.

NexGen™ lights are perfect anywhere that added punch of light is needed. If you have an application where you need much more than mood lighting then this product is just what you need.

- **Up to 3x light output vs standard LEDs**
- **3200K neutral white color temperature**
- **High (90+) CRI for realistic colors**
- **High Efficient CREE LEDs**

A SMART HOME STARTS WITH DEKOR'S DEKORKONNECT™ WiFi Light Controller

DEKORKONNECT™ enables wireless control of your DEKOR installation from anywhere in the world. Fine-tune brightness, set schedules, and see the status of all your zones from the easy-to-use Bond Home app, even when you're nowhere near home. This fully redesigned system provides longer connectivity range, easier setup, and complete integration with your favorite voice services such as Alexa and Google Home.

1-year warranty when installed with a DEKOR brand transformer.
No warranty when used with any other power source.

- **Ad-hoc on/off and brightness control**
- **Scheduling variables such as dawn and dusk**
- **Smart home integration**

INTERIOR LIGHTING PRODUCTS

INTERIOR LIGHTING PRODUCTS

DEKOR lighting is well known for their outdoor LED lighting, but we also have you covered when it comes to lighting up your indoor spaces. All of our LED lights can be used indoors – you are only limited by your imagination!

The benefits of using LED lighting for your basement, kitchen, closets, you name it space, are multiple: energy efficient, economical, dimmable, colored LED options, cool to the touch, longer bulb life, directional lighting advantages.

ALL INTERIOR PRODUCTS HAVE A 5 YEAR WARRANTY

We offer a 5 year warranty on all of our Interior products when installed with a DEKOR brand transformer; no warranty when used with any other power source.

PREMIUM QUALITY FINISH 30 YEAR WARRANTY ON ALL POWDER COAT FINISH

A. 12" & 20" LIGHT BAR LIGHT

Highlight your countertops and backsplash, light dark corners, and eliminate shadows with these adjustable angle DEKOR LED light bars. Make task areas more functional. Brighten up your kitchen during the day, add safety at night. Best of all you can do it yourself with our easy-to-install Under Cabinet light Bars and accessories featuring Plug-N-Play connectors.

Length: 12" and 20" Profile: Less than 1/2"
120 ° Degree Beam Angle • Contains 49 LEDs
Color: White

C. VERSA STRIP LIGHT

Short for versatility, DEKOR's Versa light Strip is a flexible light strip with an adhesive backing. This light is ideal for lighting the inside of cabinets with wood shelving, drawer interiors, closets, and hard-to-fit spaces.

Length: 20" or customized to pre-set lengths
120 Degree Beam Angle • Contains 12 LEDs

B. NOSEEM LIGHT

Named No See Em because of their incredibly small height – a mere 5/16" – and their unique design geometry that hides where the light is coming from. They are designed to illuminate, but not be seen. No See Em light strips are perfect for cabinets, under cabinets, under counters, and more.

Housing Height: .50" • Housing Depth: .3125"
Housing Length: S: 7 3/4 in.; M: 13 7/8 in.; L: 19 3/4 in.

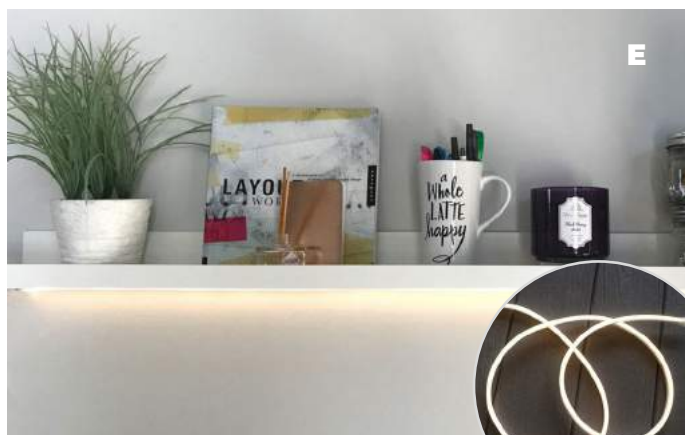

D. DISC SPOT LIGHT

A great solution for task lighting such as in cutting or food prep areas, or even a workbench area; wherever you need really bright light! This light is highly reliable, extremely energy efficient, with a very low profile.

90 Degree Radiance • Contains 42 LEDs

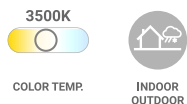

INTERIOR

E. FLEX ROPE LIGHT

Our Flex Deck LED Rope light is the simple, versatile solution to all of your complex lighting needs. With a completely hotspot-free shine, this shining strand of light produces a steady and even light output from all angles, edges, and sides.

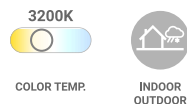

Width (light emitting surface): .315"
 Height (housing): .26" x .50"
 Length: 5' default, Customizable
 60 Lumens per foot

F. INFINITE LIGHT

DEKOR's Infinite light can be used indoors or outdoors, and attach firmly to any smooth, hard surface with the included pressure sensitive adhesive strips. The flexible lights have a profile of only 0.2" and are fully encased in silicone to accommodate curved installation surfaces.

Height: .25" • Width: .5" Length: 20" without pigtails
 85 Lumens per foot

G. EZ WIRELESS WALL SWITCH

The Wireless Wall Switch looks like a traditional indoor light switch, so it will blend in well with your decor. But under the covers, it is self-powered meaning it doesn't require any wires or batteries to operate; you can screw it into an existing junction box or install on practically any surface with the provided screws. You can even customize the appearance of the wall switch by using the face plate of your choice to the wall adapter.

1-Year Warranty*
 When installed with a DEKOR brand transformer; no warranty when used with any other power source.

H. DEK DOT™ LIGHT

DEKOR's Dek Dots are tiny lights that install completely flush with the surface. These waterproof LED lights are perfect for damp environments such as bathrooms, spas, and more.

Available in a STAIR light version (these lights cast a beam angled 30° down).

Key Features:

- Embed in wood, composite, concrete, tile, teak
- Designed to be completely flush with surfaces

Housing Diameter 90" • Housing Depth: .625"

INTERIOR LIGHTING PRODUCTS

A. STAIR LIGHT

One of our most popular outdoor lighting solutions can also be used indoors. Whether you're looking to add a night light for increased safety in the dark or want to make the new steps in your home a focal point, our indoor stairway lighting kit will get the job done. Place the fixtures in the stair risers or underneath the handrail to illuminate the space. Their design makes for easy installation and a nearly flush mount so the LED glow is all your guests will see.

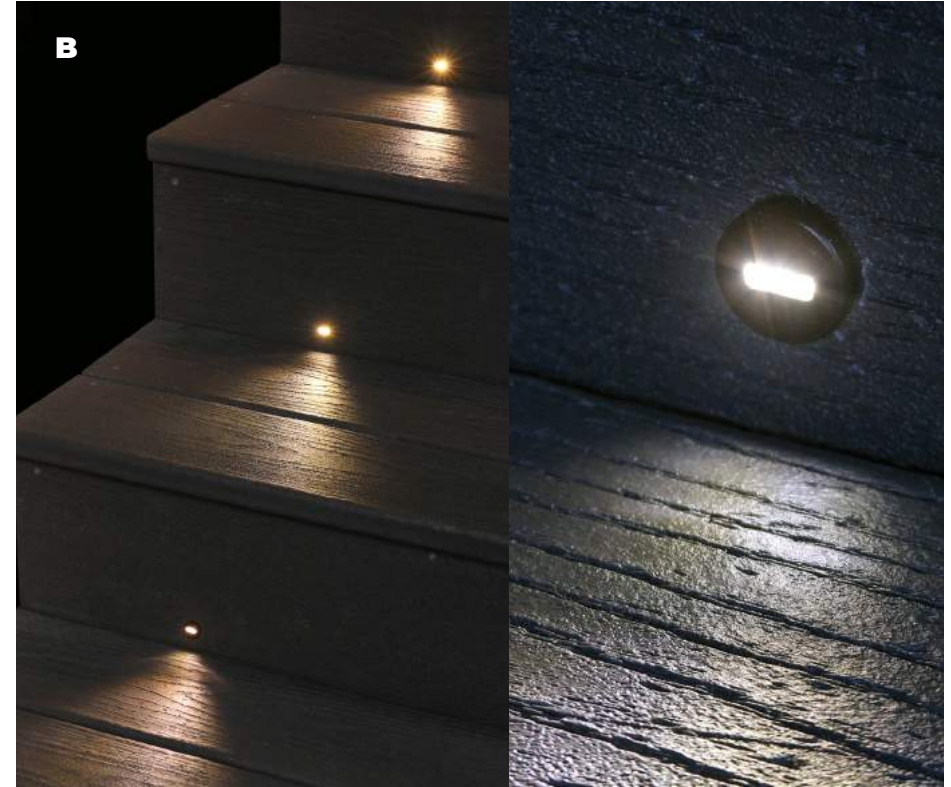

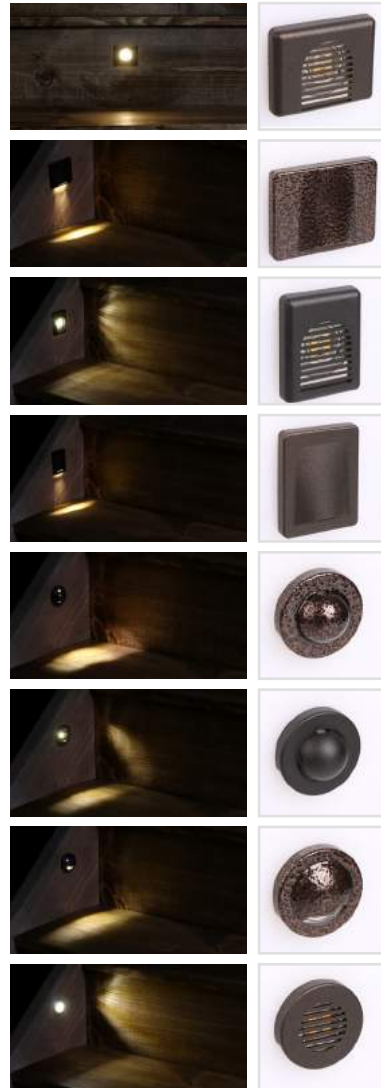

Available with or without Faceplates

Housing Diameter (recessed): .90"
 Depth (recessed): .8375"
 Housing Diameter (exposed): 1.250"
 Housing Depth (total): .90"

FACEPLATES OPTIONS

Create a custom stair lighting experience that adds creativity and sophistication to your home with DEKOR's 8 different styles of faceplates! Choose from multiple powder coating finishes to match your home's color scheme. Faceplates arrive pre-assembled to light housing, concealing housing. Housing is only available in Antique Metal Black.

B. MINI STAIR LIGHT

DEKOR's smallest stair light yet! These recessed stair lights provide a stunning amount of light from a very small package, allowing you to achieve maximum visibility with minimal obstruction on your stairs. DEKOR's Mini Stair light comes with two face styles, allowing you to customize your lighting.

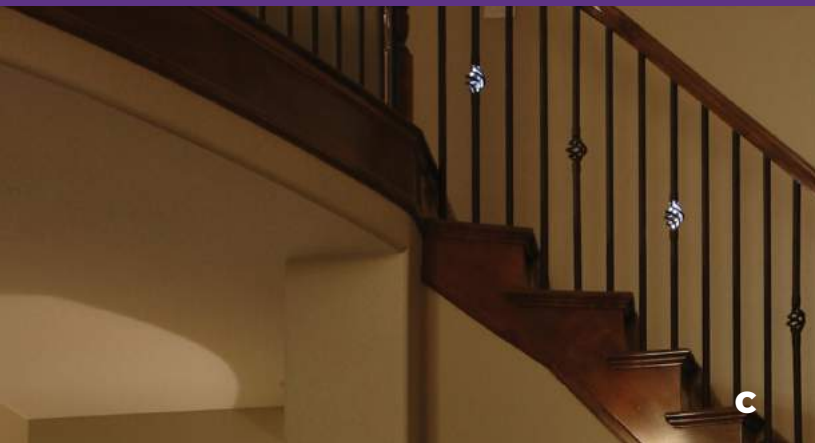

NOTE: Will get hot to the touch under normal operating conditions. Please use caution when handling lights that have been on for an extended period of time.

Faceplates: Trio or Slim
 Diameter: .50" body .625" • Exposed face Length: 2"
 Stainless Steel Housing

Powder coat finish options, see page 42.

INTERIOR

C. ALUMINUM BALUSTERS

DEKOR's aerospace grade aluminum balusters are not only for the outdoors, but can also be used to show off your indoor staircase. Used alone or in combination with Baskets, Accents or Lights, our Round Balusters offer sleek design and solid craftsmanship. Baluster End Caps in two styles provide a professional finish for your installation.

Height: Available in 26", 27" and 32"

3 Styles:
Classic Round or Square • With Basket Lit or Non-Lit
With Casey Collars Lit or Non-Lit

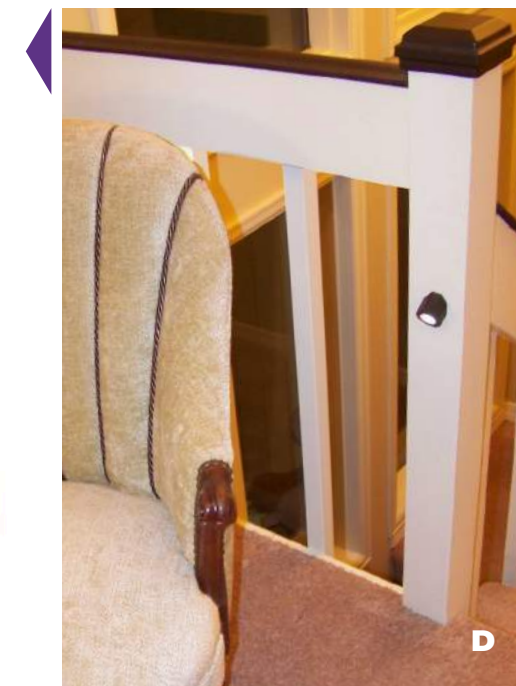

End Caps available in 3 styles: Screw Through • Screw In • Angled

D. PETITE DIRECTIONAL LIGHT

Directional Petite Post Lamps from DEKOR can be mounted anywhere along a full 360° rotation and cast light out at 30° from the mounting surface. Originally intended for post lighting, the directional lights can be used almost anywhere!

Mounting Hole Diameter: .90"
Die cast aluminum

E. UP/DOWN LIGHT

Our indoor recessed LED down light can be used to create unique accent lighting to enhance the beauty of your home and create ambiance. Use in ceilings, floors, closets, and as recessed cabinet lighting. These low voltage lights are easy to install, virtually flush with the surface, and hardly visible.

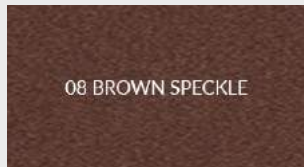

Housing Diameter (recessed): .90"
Housing Depth (recessed): .8375"
Housing Diameter (exposed): 1.250"
Housing Depth (total): .90"

DEKOR COLOR SAMPLES

ACCESSORIES

CONTROLLERS

DEKOR dimmers & dimmable transformers give you the power to find your ideal shine with our integrated LED lighting collections. DEKOR dimmers offer the full spectrum of light with several brightness levels, only requiring a simple daisy-chain connection between your transformer and lights. Many of our dimmers are dual-purposed devices, with timer capabilities as well.

1 Year Warranty When Used Exclusively With DEKOR Transformers.
No warranty when used with any other brand of transformer.

DEKORKONNECT™ WIFI LIGHT CONTROLLER

Enables wireless control of your DEKOR installation from anywhere in the world. Fine-tune brightness, set schedules, and see the status of all your zones from the easy-to-use Bond Home app, even when you're nowhere near home.

EZ PHOTOCCELL TIMER

This simple photo-activated timer allows you to turn your LED lights on or off automatically. Simply set it up and forget about it. Settings include off, always on, dusk to dawn, and on at dusk for a preset number of hours. The timer is compatible with all DEKOR transformers.

EZ INDOOR DIMMER WITH REMOTE

The EZ Dimmer is designed to dim your project lighting. It can be operated by either the remote or by pressing the dimming buttons on the unit. The remote control has a range of 30 feet from the base unit.

EZ WIRELESS DIMMER SWITCH

Our Wireless Dimmer system is comprised minimally of a Wireless Wall Switch and a Wireless Dimmer Receiver; this kit contains everything you need to get going. You can always add more wireless wall switches to your installation later on; the switches are modular so you can have multiple switches controlling the same lights.

EZ DIMMER WITH TEACHABLE REMOTE

This waterproof, low voltage dimmer is designed to control the brightness of your LED lighting installation from zero to full intensity. It can be operated by either the remote provided or by pressing the dimming buttons on the unit. The remote control has a range of 70 feet from the base unit.

EZ MOTION CONTROLLER +

With the DEKOR EZ Motion Control+ you now have total control of your lights. The EZ Motion Controller+ is completely programmable; has a 360° PIR (Passive Infrared) lens motion sensor, an ambient light sensor for greater light sensitivity than a traditional photocell, and is completely waterproof (IP67). All that in a small 1/2" x 1 3/4" diameter, powder coated, antique metal black, aluminum case.

ENCLOSURE

The enclosure is designed to shield DEKOR LED transformers and controllers with a visually appealing housing. Made from durable polycarbonate it can withstand the elements and is completely watertight.

1 Year Warranty When Used Exclusively With DEKOR Transformers.
No warranty when used with any other brands.

EZ TRANSFORMER AND CONTROLLER ENCLOSURE

Specs: Height: 13.5", Width: 12.5", Depth: 7.5" INTERIOR:
Height: 12", Width: 10", Depth: 6"
Available with or without assembly service.
IP Rating: 67 (waterproof).
NEMA (National Electrical Manufacturers Association) Approved.

CHARGER

Enjoying the outdoors should never be dulled by worrying about a low battery. Top off your mobile phone or keep your portable speakers powered as long as you want with the NexGen USB Charger.

3 Year Warranty when used with a DEKOR brand transformer.
No warranty when used with any other brand of transformer.

NEXGEN USB CHARGERS

Mounting Hole Diameter: .90", Housing Flange Diameter: 1.25". 10W of Power.
This mini charging port can be connected to a DEKOR transformer using our Plug-N-Play cable system and will charge any USB device through a cable compatible with the USB A socket.

ADHESIVE

Commonly used when building structures or making repairs, Xtreme Bond adhesive can stand up to harsh, adverse weather conditions, including wet and frozen surfaces. This adhesive has a fast-drying time as it creates a permanent, strong bond to any substrate.

6-month warranty with a shelf life of 1 year when properly stored.

XTREME BOND POLYURETHANE ADHESIVE

Xtreme Bond™ adhesive is a high quality, premium polyurethane construction adhesive that tackles any outdoor project with ease. This adhesive is specially designed for construction, landscape and hardscape pros to bond nonporous materials such as masonry, concrete, brick, stone, metal, and cement blocks, as well as porous materials such as untreated wood and fiberglass.
