

PARTS

- A** Savona Solar Post Cap Light

TOOLS NEEDED

- B** Silicone Caulking

HELPFUL TIPS

- » Follow the appropriate building and electrical codes when installing all DEKOR® lighting products.
- » Install the solar post cap in locations that receive the most amount of sunlight.
- » If the installation location experiences long periods of temperatures below 32°F(0°C) it is recommended to shut the post cap off to prolong the battery life. In this condition the cap will have a shorter operating time.
- » Maintenance - Periodically clean the solar panel to be free of dust and debris for optimum charging performance.

CAUTION:

Do not attempt to short the contacts of the battery. Doing so will damage the battery and may cause it to overheat and burst.

When installing a replacement battery the positive marking on the battery and the positive marking next to the battery holder **MUST MATCH UP** for polarity. Do not force the connections together. Failure to match the polarity **will** damage the controller board.

Do not puncture or allow sharp objects to come in to contact with the battery.

Do not attempt removal of the battery jacket.

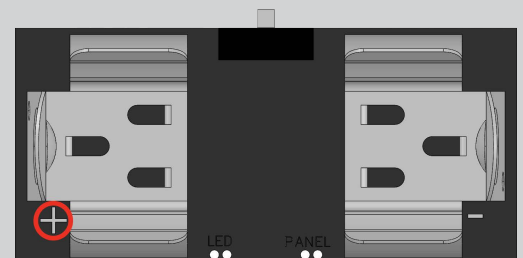

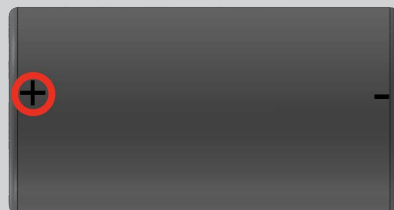

Do not dispose of battery in a fire.

Do not attempt to alter or modify the battery from its original manufacture design.

The battery is intended for use in the DEKOR Savona Solar Post Cap any other use is prohibited and will void the warranty.

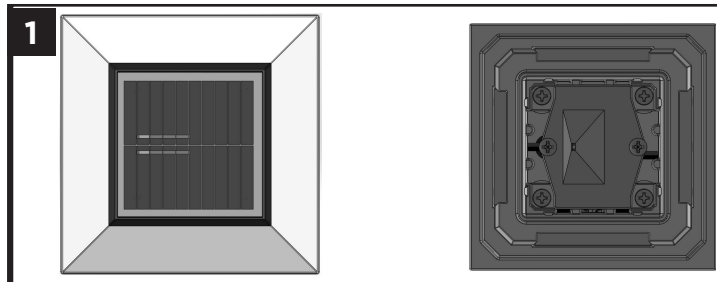

Check local regulations for proper battery disposal.

Keep battery out of reach of children.

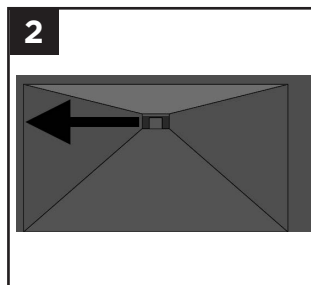

How to install DEKOR® Deck Lighting / CONTINUED

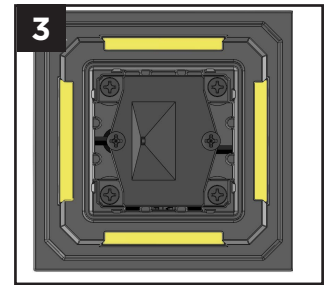

1. Turn the post cap upside down

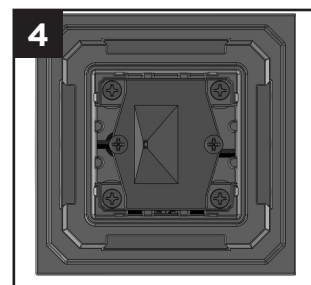

2. Slide the switch to the left to turn the post cap on.

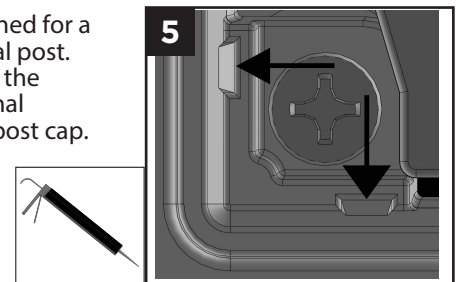

3. Cover the solar panel and the post cap lights will turn on.

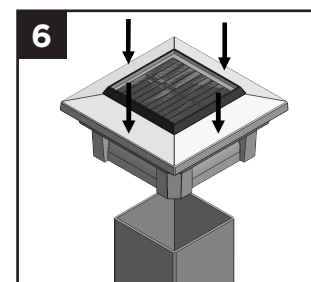

4. Turn the post cap over so the solar panel is facing direct sunlight. The post cap lights will turn off.

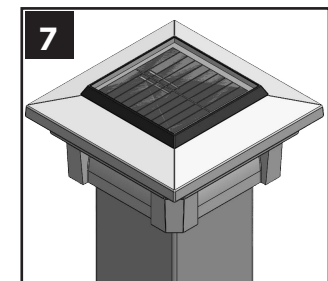

5. The post cap is designed for wedge fit over the metal post. Add silicone buttons to the wedge faces of additional means of securing the post cap.

6. Set the post cap on the metal post. Then press down on the angled faces so the internal wedge tabs make a snug fit. **Caution: Do not press down on the solar panel face.**

7. The post cap is ready for use.
